

Information

about excise-tax procedures for participants of the fair: “ProWein 2017“

1. Notice to exhibitors from EU-Countries:

Participants from EU-Countries will not be given a general permission as "authorized recipient" or a special tax-number for the fair: “ProWein 2017“.

For the use of EMCS you need to contact any forwarding-agency or company of your choice, which is based in Germany and is holder of the licence "registered trader". Participants will need the registration number of the chosen representative or agent to open the required electronic documents ahead of ProWein. The above mentioned regulations relate to transports of goods under excise-tax suspension.

Goods, whose liable excise-taxes have already been paid in the forwarding member state, have to go along with adequate documents (simplified Accompanying Administrative Document, invoice and delivery note). In this case you need to contact the customs office at the fair grounds for the required tax procedures.

2. Notice to exhibitors from NON-EU-Countries:

Participants from NON-EU-Countries will have to take care of the clearance upon importation as usual.

For the release of goods for consumption you may contact any competent customs office as usual. You may also ask any forwarding-agency of your choice to act as representative for you.

Kind regards

Hauptzollamt Düsseldorf
